

Delay in Start-Up &
Business Interruption

Integrated Services. Expertly Delivered

CCI is a global consultancy of delay, quantum and technical experts, advising the insurance and construction industries.

DELAY IN START-UP & BUSINESS INTERRUPTION

Analysing events to provide accurate apportionment of delay.

Our specialist forensic timeline analysts are internationally recognised for promptly and efficiently delivering clarity to the world's highest value and most complex Delay in Start-Up (DSU) and Business Interruption (BI) claims. We recognise the key differences that make time-element insurance losses unique, and that the insurance claims process needs to proceed harmoniously with projects' construction management procedures.

Benefits of our service:

- Reconstructing an accurate picture of events
- Expert analysis of complex schedule data
- Objective separation of delays between events and causes
- Analysing concurrency and critical path
- Independent reporting
- Providing essential negotiation support

CCI OVERVIEW

Timeline Forensics has been at the core of CCI since it was founded in 1998. In the event of a delay-related loss or claim, CCI Timeline Forensics provides the resolution. CCI has worked with Insurers on over 500 complex delay claims.

We have a team of Delay, Quantum and Technical experts with comprehensive knowledge of all types of loss, ready to provide the right support and insight to ensure that any claim or reinstatement project is expedited and diligently managed to reduce the risk of extended delay or business downtime.

SHARED OBJECTIVES

- Provide Insurers and their team with a clearer understanding of the schedule
- Support the adjustment process
- Keep all parties informed at each step
- Undertake detailed timeline analysis to facilitate a fair settlement
- Provide clear, concise reporting

“It is through our unique integrated approach, scheduling expertise, experience of complex projects and knowledge of the insurance and construction industries that we are able to provide a pro-active service focused upon settling claims promptly, efficiently and in a cost-effective manner”
